

Startup 05 Report

The views are divided into 2 sections, web and mobile. All links accessible via </sitemap.html>

Bugs

- There are no more bugs.

React Components

- **about.js:** renders the *About* page allowing users to gain knowledge on the team behind nectari.me.
- **body.js:** responsible for the sidebar and navbar as well as providing the basic layout for desktop based pages.
- **contact.js:** renders the *Contact* page which allows users to contact the team regarding any issues they may have using nectari.me through email.
- **help.js:** renders the *Help* page which can help users understand how to properly use nectari.me to their benefit.
- **home.js:** renders the *Home* page which contains the QR code.
- **mobile_cloud_services.js:** renders the *Mobile_Cloud_Services* page which lets the user choose which cloud service they want to access.
- **mobile_files_and_folders.js:** renders the *Mobile_Files_and_Folders* page which shows the files and or folders for their chosen cloud service.
- **user_cloud_services.js:** renders the *User_Cloud_Service* page which lets the user register a cloud service to their account. Google Drive and Dropbox mockups.
- **user_profile.js:** renders the *User_Profile* page which lets users change their name, email, password, and upload a new profile image.
